

## **Turning Things Around... A Motivational Speech**

As a criminal superstar, with strong ties to “Mafia families”, George Feder was living the high life. But as the story goes with most criminals – after being arrested – George spiraled into a deep dark pit of addiction and depression. After finally hitting rock bottom, George sought guidance from a local rabbi, and began taking steps to slowly turn his life around.

In George’s “Turning Things Around” presentation, he gives guidance to high risk individuals facing similar problems of addiction and depression in their own lives.

This one hour presentation includes the following:

- Examples from George’s own life of how poor decisions lead to self destruction.
- Honest and open conversation with a man who has seen the worst life has to offer and lived to tell about it.
- The steps George took to go from being an ex-felon who was an alcoholic in a deep depression to becoming an *America’s Most Wanted* Correspondent and a respected crime prevention consultant.
- Principles of the “12 Step Program” and why George credits the program for giving him new life.
- The cold hard truth about prison and the consequences of life as a criminal.
- Tips about how to take control of your own life and make a positive change.

**Immediately following the presentation, George will conduct a no-holds-barred Q & A session. No question is off limits.**
